Report on Internal Control Over Financial Reporting

The Association's principal executives and principal financial officers, or persons performing similar functions, are responsible for establishing and maintaining adequate internal control over financial reporting for the Association's Consolidated Financial Statements. For purposes of this report, "internal control over financial reporting" is defined as a process designed by, or under the supervision of the Association's principal executives and principal financial officers, or persons performing similar functions, and effected by its Board of Directors, management and other personnel. This process provides reasonable assurance regarding the reliability of financial reporting information and the preparation of the Consolidated Financial Statements for external purposes in accordance with accounting principles generally accepted in the United States of America.

Internal control over financial reporting includes those policies and procedures that: (1) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the Association, (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial information in accordance with accounting principles generally accepted in the United States of America, and that receipts and expenditures are being made only in accordance with authorizations of management and directors of the Association, and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Association's assets that could have a material effect on its Consolidated Financial Statements.

The Association's management has completed an assessment of the effectiveness of internal control over financial reporting as of March 31, 2010. In making the assessment, management used the framework in *Internal Control — Integrated Framework*, promulgated by the Committee of Sponsoring Organizations of the Treadway Commission, commonly referred to as the "COSO" criteria.

Based on the assessment performed, the Association concluded that as of March 31, 2010, the internal control over financial reporting was effective based upon the COSO criteria. Additionally, based on this assessment, the Association determined that there were no material weaknesses in the internal control over financial reporting as of March 31, 2010.

Management's Discussion and Analysis of Financial Condition and Results of Operations

(dollars in thousands)

The following commentary reviews the financial condition and results of operations of AgCarolina Financial (Association) for the three months ended March 31, 2010. These comments should be read in conjunction with the accompanying financial statements, notes to the financial statements and the 2009 annual report of the Association.

LOAN PORTFOLIO

The Association provides funds to farmers, rural homeowners, and farm-related businesses for financing of short and intermediate-term loans and long-term real estate mortgage loans. Predominant commodities in the portfolio are tobacco, cotton, forestry, and hogs, which constitute \$427,824, or 54 percent, of the loan portfolio as of March 31, 2010. Other major farm commodities include poultry, landlords, farm services, field crops, horticulture, and general livestock. Farm size varies and many of the borrowers in the region have diversified farming operations. This factor, along with the numerous opportunities for non-farm income in the area, somewhat reduces the level of dependency on a given commodity.

The net loan volume of the Association as of March 31, 2010, was \$788,630, a decrease of \$38,057 or 4.60 percent as compared to \$826,687 at December 31, 2009. Net loans accounted for 88.85 percent of total assets at March 31, 2010 as compared to 86.83 percent of total assets at December 31, 2009. The decrease in net loan volume during the reporting period is primarily attributed to a reduction in loan demand related to the deterioration of the general economy.

There is an inherent risk in the extension of any type of credit. Portfolio credit quality continues to be maintained at an acceptable level, however, and credit administration remains satisfactory. Nonaccrual loans increased from \$23,126 at December 31, 2009 to \$30,921 at March 31, 2010, for an increase of 33.71 percent. The increase is due to the addition of a small number of larger accounts into nonaccruing status. Association management maintains an allowance for loan losses in an amount considered sufficient to absorb possible losses in the loan portfolio based on current and expected future conditions. During the quarter the Association increased the allowance for loan losses by \$500 through a provision for loan losses. The allowance for loan losses at March 31, 2010 was \$10,178 as compared to \$9,682 at

December 31, 2009 and was considered by management to be adequate to cover possible losses. The ratio of the allowance for loan losses to loans at March 31, 2010 was 1.27 percent.

Other investments consists of tobacco buyout Successor-in-Interest Contracts (SIIC) which come under the FCA's Mission Related Investments. Under the SIIC, the tobacco quota holders and producers may assign their rights to receive tobacco buyout contract payments to a third party. The third party, or successor, purchases the entire contract and all related rights and obligations associated with the contract. As of March 31, 2010 the Association held tobacco buyout SIIC of \$53,706, a decrease of \$13,238 or 19.77%, as compared to \$66,944 as of December 31, 2009. The decrease is due to the receipt of the scheduled annual payment from the government during the first quarter.

RESULTS OF OPERATIONS

For the three months ended March 31, 2010

Net income for the three months ended March 31, 2010 totaled \$4,785, an increase of \$1,134, or 31.06 percent, as compared to the same period of 2009. The primary reason for the increase in net income is due to a \$1,091 refund from the Farm Credit System Insurance Corporation (FCSIC.) At March 31, 2010, total interest income decreased by \$1,165 compared to March 31, 2009. The decrease in interest income is due to both a decline in loan volume and interest rates as compared to the same period in 2009.

Interest income from nonaccrual loans was \$46 for the three months ended March 31, 2010, a decrease of \$25 from the same period of 2009. Interest expense decreased \$1,056 for the three months ended March 31, 2010, as compared to the comparable period of 2009. The decrease in interest expense is also attributed to the decline in loan volume and interest rates.

Noninterest income for the three months ended March 31, 2010 totaled \$4,025 as compared to \$3,083 for the same period of 2009, an increase of \$942. The increase is primarily due to the \$1,091 FCSIC insurance refund.

Noninterest expense for the three months ended March 31, 2010 was \$3,881, a decrease of \$401 as compared to the same period of 2009. The major components of noninterest

expense are salaries and employee benefits, occupancy and equipment expenses, and general operating expenses. Salaries and employee benefits totaled \$2,705 for the three months ended March 31, 2010, for a decrease of \$148, or 5.19 percent, as compared to the same period of 2009. The decrease is primarily due to a reduction in the number of employees and a reduction in incentive compensation.

LIQUIDITY AND FUNDING SOURCES

Liquidity

Liquidity management is the process whereby funds are made available to meet all financial commitments including the extension of credit, payment of operating expenses and payment of debt obligations. The Association receives access to funds through its borrowing relationship with AgFirst Farm Credit Bank (Bank) and from income generated by operations. Sufficient liquid funds have been available to meet all financial obligations.

Funding Sources

The principal source of funds for the Association is the borrowing relationship established with the Bank through a General Financing Agreement. The General Financing Agreement utilizes the Association's credit and fiscal performance as criteria for establishing a line of credit on which the Association may draw funds. The funds are advanced by the Bank to the Association in the form of notes payable. The notes payable are segmented into variable rate and fixed rate sections. The variable rate note is utilized by the Association to fund variable rate loan advances and operating funds requirements. The fixed rate note is used specifically to fund fixed rate loan advances made by the Association. The total notes payable to the Bank at March 31, 2010 was \$710,488 as compared to \$780,436 at December 31, 2009. The 8.96 percent decrease during the period is primarily attributed to a reduction in loan demand.

The Association has no lines of credit outstanding with third parties as of March 31, 2010.

CAPITAL RESOURCES

Total members' equity at March 31, 2010, increased 6.42 percent to \$158,065 from the December 31, 2009, total of \$148,530. The increase is attributed to the increase in retained earnings and capital stock. Total capital stock and participation certificates were \$23,093 on March 31, 2010, as compared to \$18,340 on December 31, 2009. The increase in capital stock resulted primarily from an increase in preferred stock. As of March 31, 2010 the Association had \$20,006 of preferred stock outstanding as compared to \$15,260 as of December 31, 2009.

Farm Credit Administration (FCA) regulations require all Farm Credit institutions to maintain minimum permanent capital, total surplus and core surplus ratios. These ratios are calculated by dividing the Association's permanent capital, total surplus and core surplus as defined in FCA regulations, by a risk-adjusted asset base. As of March 31, 2010, the Association's total surplus ratio and core surplus ratio were both 14.61 percent, and the permanent capital ratio was 17.37 percent. All three ratios were well above the minimum regulatory ratios of 7.00 percent for permanent capital and total surplus ratios and 3.50 percent for the core surplus ratio.

NOTE: Shareholder investment in the Association could be affected by the financial condition and results of operations of AgFirst Farm Credit Bank. Copies of AgFirst's annual and quarterly reports are available upon request free of charge by calling 1-800-845-1745, ext. 378, or writing Stephen Gilbert, AgFirst Farm Credit Bank, P.O. Box 1499, Columbia, SC 29202. Information concerning AgFirst Farm Credit Bank can also be obtained at their website, www.agfirst.com. Copies of the Association's annual and quarterly reports are also available upon request free of charge by calling 1-919-250-9500, writing Linda Strickland, AgCarolina Financial, ACA, P. O. Box 14789, Raleigh, NC 27620, or accessing the website, www.agcarolina.com. The Association prepares a quarterly report within 40 days after the end of each fiscal quarter, except that no report need be prepared for the fiscal quarter that coincides with the end of the fiscal year of the institution.

Notes to the Consolidated Financial Statements

(dollars in thousands, except as noted)
(unaudited)

NOTE 1 – ORGANIZATION, SIGNIFICANT ACCOUNTING POLICIES, AND RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

The accompanying financial statements include the accounts of AgCarolina Financial, ACA (the Association). A description of the organization and operations of the Association, the significant accounting policies followed, and the financial condition and results of operations as of and for the year ended December 31, 2009, are contained in the 2009 Annual Report to Shareholders. These unaudited first quarter 2010 consolidated financial statements should be read in conjunction with the 2009 Annual Report to Shareholders.

The accompanying consolidated financial statements contain all adjustments necessary for a fair presentation of the interim financial condition and results of operations and conform with generally accepted accounting principles (GAAP) and prevailing practices within the banking industry. The results for the three months ended March 31, 2010 are not necessarily indicative of the results to be expected for the year ending December 31, 2010.

Certain amounts in the prior period's consolidated financial statements may have been reclassified to conform to the current period's consolidated financial statement presentation. Such reclassifications had no effect on the prior period net income or total capital as previously reported.

The Association maintains an allowance for loan losses in accordance with GAAP. The loan portfolio is reviewed quarterly to determine the adequacy of the allowance for losses. As of March 31, 2010, the allowance for losses is adequate in management's opinion to provide for possible losses on existing loans.

In addition to the recently issued accounting pronouncements discussed in the 2009 Annual Report to Shareholders, in June 2009, the Financial Accounting Standards Board (FASB) issued guidance "Accounting for Transfers of Financial Assets," which amended previous guidance by improving the relevance, representational faithfulness, and comparability of the information that a reporting entity provides in its financial statements about a transfer of financial assets; the effects of a transfer on its financial position, financial performance, and cash flows; and a transferor's continuing involvement, if any, in transferred financial assets.

This guidance was effective as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period and for interim and annual reporting periods thereafter. Earlier application was prohibited. This guidance must be applied to transfers occurring on or after the effective date. Additionally, on and after the effective date, the concept of a qualifying special purpose entity is no longer relevant for accounting purposes. Therefore, formerly qualifying special-purpose entities (as defined under previous accounting guidance) should be evaluated for consolidation by reporting entities on and after the effective date in accordance with the applicable consolidation guidance. If the evaluation on the effective date results in consolidation, the reporting entity should apply the transition guidance that requires consolidation. The Association evaluated the impact of adoption on its loan participation agreements to ensure that participations would meet the requirements for sales treatment. The impact of adoption on January 1, 2010 was immaterial to the Association's financial condition and results of operations.

In June 2009, the FASB also issued guidance, to improve financial reporting for those enterprises involved with variable interest entities, which amends previous guidance by requiring an enterprise to perform an analysis to determine whether the enterprise's variable interest or interests give it a controlling financial interest in a variable interest entity.

Additionally, an enterprise is required to assess whether it has an implicit financial responsibility to ensure that a variable interest entity operates as designed when determining whether it has the power to direct the activities of the variable interest entity that most significantly impact the entity's economic performance.

This guidance was effective as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period and for interim and annual reporting periods thereafter. Earlier application was prohibited. The Association does not have any variable interest or controlling interest in a variable entity. Therefore, there was no impact of adoption of the guidance for the Association.

In January 2010, the FASB issued guidance "Fair Value Measurements and Disclosures," which is to improve disclosures about fair value measurement by increasing transparency in financial reporting. The changes will provide a greater level of disaggregated information and more detail

disclosures of valuation techniques and inputs to fair value measurement. The new disclosures and clarification of existing disclosures were effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances and settlements in the rollforward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. The adoption of this guidance had no impact on the Association's financial condition and results of operations but resulted in additional disclosures (see Note 4).

NOTE 2 – ALLOWANCE FOR LOAN LOSSES AND IMPAIRED LOANS

An analysis of the allowance for loan losses follows:

	For the three months ended March 31,	
	2010	2009
Balance at beginning of period	\$ 9,682	\$ 7,618
Provision for (reversal of) loan losses	500	400
Charge-offs	(6)	(405)
Recoveries	1	1
Balance at end of period	<u>\$10,177</u>	<u>\$ 7,614</u>

The following table presents information concerning impaired loans as of March 31,

	2010	2009
Impaired loans with related allowance	\$11,956	\$ 2,858
Impaired loans with no related allowance	20,940	12,424
Total impaired loans	<u>32,896</u>	<u>15,282</u>
Allowance on impaired loans	<u>\$ 2,975</u>	<u>\$ 728</u>

The following table summarizes impaired loan information for the three months ended March 31,

	2010	2009
Average impaired loans	\$ 24,251	\$ 12,585
Interest income recognized on impaired loans	\$ 47	\$ 73

NOTE 3 – EMPLOYEE BENEFIT PLANS

The following is a table of retirement and other postretirement benefit expenses for the Association:

	For the three months ended March 31,	
	2010	2009
Pension	\$ 622	\$ 609
401(k)	88	99
Other postretirement benefits	108	108
Total	<u>\$ 818</u>	<u>\$ 816</u>

The following is a table of retirement and other postretirement benefit contributions for the Association:

	Actual YTD Through 3/31/10	Projected Contributions For Remainder of 2010	Projected Total Contributions 2010
Pension	\$ -	\$ 2,106	\$ 2,106
Other postretirement benefits	84	238	322
Total	<u>\$ 84</u>	<u>\$ 2,344</u>	<u>\$ 2,428</u>

Contributions in the above table include allocated estimates of funding for multi-employer plans in which the Association participates. These amounts may change when a total funding amount and allocation is determined by the respective Plan's Sponsor Committee. Also, market conditions could impact discount rates and return on plan assets which could change contributions necessary before the next plan measurement date of December 31, 2010.

Further details regarding employee benefit plans are contained in the 2009 Annual Report to Shareholders.

NOTE 4 – FAIR VALUE MEASUREMENT

Effective January 1, 2008, the Association adopted FASB guidance on fair value measurements. This guidance defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements for certain assets and liabilities measured at fair value on a recurring and non-recurring basis. These assets and liabilities primarily consist of assets held in trust funds, standby letters of credit, impaired loans, and other property owned.

This guidance defines fair value as the exchange price that would be received for an asset or paid to transfer a liability in an orderly transaction between market participants in the principal or most advantageous market for the asset or liability.

This guidance establishes a fair value hierarchy for disclosure of fair value measurements to maximize the use of observable inputs, that is, inputs that reflect the assumptions market participants would use in pricing an asset or liability based on market data obtained from sources independent of the reporting entity. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The three levels of inputs and the classification of the Association's financial instruments within the fair value hierarchy are as follows:

Level 1

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets. The Association's Level 1 assets at March 31, 2010 consist of assets held in trust funds and liabilities related to deferred compensation plans and assets held in mutual funds related to the Association's Corporate Giving Fund. The trust funds and mutual funds include investments in securities that are actively traded and have quoted net asset value prices that are directly observable in the marketplace.

Level 2

Level 2 inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices in markets that are not active; and inputs that are observable, or can be corroborated, for substantially the full term of the asset or liability. The Association has no Level 2 assets and liabilities measured at fair value on a recurring basis.

Level 3

Level 3 inputs to the valuation methodology are unobservable and supported by little or no market activity. Valuation is determined using pricing models, discounted cash flow methodologies, or similar techniques, and could include significant management judgment or estimation. Level 3 assets and liabilities also could include instruments whose price has been adjusted based on dealer quoted pricing that is different than the third-party valuation or internal model pricing.

Level 3 assets at March 31, 2010 include impaired loans which represent the fair value of certain loans that were evaluated for impairment under FASB guidance. The fair value was based upon the underlying collateral since these were collateral-dependent loans. The fair value measurement process uses independent appraisals and other market-based information, but in many cases it also requires significant input based on management's knowledge of and judgment about current market conditions, specific issues relating to the collateral and other matters. As a result, these fair value measurements fall within Level 3 of the hierarchy. When the value of the collateral, less estimated costs to sell, is less than the principle balance of the loan, a specific reserve is established.

Other property owned is classified as a level 3 asset at March 31, 2010. The fair value for other property owned is based upon the collateral less estimated costs to sell. Level 3 liabilities at March 31, 2010 include standby letters of credit whose market value is internally calculated based on information that is not observable either directly or indirectly in the marketplace.

Assets and Liabilities Measured at Fair Value on a Recurring Basis

The following tables present the assets and liabilities that are measured at fair value on a recurring basis at March 31, 2010 and December 31, 2009 for each of the fair value hierarchy levels:

	March 31, 2010			Total Fair Value
	Level 1	Level 2	Level 3	
Assets:				
Assets held in trust funds	\$ 2,296	\$ -	\$ -	\$ 2,296
Assets held in Mutual funds	637	-	-	637
Total Assets	\$ 2,933	\$ -	\$ -	\$ 2,933

Liabilities:				
Deferred Compensation Liabilities	\$ 1,942	\$ -	\$ -	\$ 1,942
Standby letters of credit	\$ -	\$ -	\$ 79	\$ 79
Total Liabilities	\$ 1,942	\$ -	\$ 79	\$ 2,021

	December 31, 2009			Total Fair Value
	Level 1	Level 2	Level 3	
Assets:				
Assets held in trust funds	\$ 2,153	\$ -	\$ -	\$ 2,153
Assets held in Mutual funds	594	-	-	594
Total Assets	\$ 2,747	\$ -	\$ -	\$ 2,747

Liabilities:				
Deferred Compensation Liabilities	\$ 1,816	\$ -	\$ -	\$ 1,816
Standby letters of credit	-	-	88	88
Total Liabilities	\$ 1,816	\$ -	\$ 88	\$ 1,904

The following tables present the changes in Level 3 assets and liabilities measured at fair value on a recurring basis for the three months ended March 31, 2010 and 2009. The Association had no transfer of assets or liabilities into or out of Level 1 or Level 2 during the first three months of 2010 and 2009.

	Standby Letters Of Credit
Balance at January 1, 2010	\$ 88
Total gains or (losses) realized/unrealized:	
Included in earnings	-
Included in other comprehensive loss	-
Purchases, sales, issuances and settlements, net	(9)
Transfers in and/or out of level 3	-
Balance at March 31, 2010	<u>\$ 79</u>

	Standby Letters Of Credit
Balance at January 1, 2009	\$ 81
Total gains or (losses) realized/unrealized:	
Included in earnings	-
Included in other comprehensive loss	-
Purchases, sales, issuances and settlements, net	(7)
Transfers in and/or out of level 3	-
Balance at March 31, 2009	<u>\$ 74</u>

Assets and Liabilities Measured at Fair Value on a Non-recurring Basis

Assets and liabilities measured at fair value on a non-recurring basis at March 31, 2010 and December 31, 2009 for each of the fair value hierarchy values are summarized below:

		March 31, 2010				
		Level 1	Level 2	Level 3	Total Fair Value	YTD Total Gains (Losses)
Assets:						
Impaired loans	\$ -	\$ -	\$ 8,843	\$ 8,843	\$ (763)	
Other property owned	\$ -	\$ -	\$ -	\$ -	\$ -	
		December 31, 2009				
		Level 1	Level 2	Level 3	Total Fair Value	YTD Total Gains (Losses)
Assets:						
Impaired loans	\$ -	\$ -	\$ 6,447	\$ 6,447	\$ (3,803)	
Other property owned	\$ -	\$ -	\$ 517	\$ 517	\$ (36)	

NOTE 5 — DISCLOSURES ABOUT FAIR VALUE OF FINANCIAL INSTRUMENTS

The following table presents the carrying amounts and fair values of the Association's financial instruments at March 31, 2010 and December 31, 2009.

	March 31, 2010		December 31, 2009	
	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value
Financial assets:				
Cash	\$ 953	\$ 953	\$ 3,272	\$ 3,272
Loans, net of allowance	\$ 788,630	\$ 801,815	\$ 826,687	\$ 849,122
Tobacco Buyout SIIC	\$ 53,706	\$ 58,162	\$ 66,944	\$ 71,423
Assets held in trust funds	\$ 2,296	\$ 2,296	\$ 2,153	\$ 2,153
Assets held in Mutual funds	\$ 637	\$ 637	\$ 594	\$ 594
Financial liabilities:				
Notes payable to AgFirst Farm Credit Bank	\$ 710,488	\$ 739,477	\$ 780,436	\$ 801,243
Deferred Compensation Liability	\$ 1,942	\$ 1,942	\$ 1,816	\$ 1,816

Quoted market prices are generally not available for certain System financial instruments, as described below. Accordingly fair values are based on judgments regarding anticipated cash flows, future expected loss experience, current economic conditions, risk characteristics of various financial instruments, and other factors. These estimates involve uncertainties and matters of judgment, and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

A description of the methods and assumptions used to estimate the fair value of each class of the Association's financial instruments for which it is practicable to estimate that value follows:

- A. **Cash:** The carrying value is a reasonable estimate of fair value.
- B. **Loans:** Because no active market exists for the Association's loans, fair value is estimated by discounting the expected future cash flows using the Association's current interest rates at which similar loans would be made to borrowers with similar credit risk. As the discount rates are based on the Bank's loan rates, as well as management estimates, management has no basis to determine whether the fair values presented would be indicative of the value negotiated in an actual sale.

For purposes of determining fair value of accruing loans, the loan portfolio is segregated into pools of loans with homogeneous characteristics based upon repricing and credit risk. Expected future cash flows and interest rates reflecting appropriate credit risk are separately determined for each individual pool.

Fair value of loans in a nonaccrual status is estimated to be the carrying amount less specific reserves.

The carrying value of accrued interest approximates its fair value.

- C. **Investment in AgFirst Farm Credit Bank:** Estimating the fair value of the Association's investment in the Bank is not practicable because the stock is not traded. The net investment is a requirement of borrowing from the Bank and is carried at cost plus allocated equities in the accompanying Consolidated Balance Sheets. The Association owns 3.80 percent of the issued stock of the Bank as of March 31, 2010 net of any reciprocal investment. As of that date, the Bank's assets totaled \$30.1 billion and shareholders' equity totaled \$1.7 billion. The Bank's earnings were \$117 million during the first three months of 2010.
- D. **Notes Payable to AgFirst Farm Credit Bank:** The notes payable are segregated into pricing pools according to the types and terms of the loans (or other assets) which they fund. Fair value of the notes payable is estimated by discounting the anticipated cash flows of each pricing pool using the current rate that would be charged for additional borrowings. For purposes of this estimate it is assumed the cash flow on the notes is equal to the principal payments on the Association's loan receivables plus accrued interest on the notes payable. This assumption implies that earnings on the Association's interest margin are used to fund operating expenses and capital expenditures. The carrying value of accrued interest approximates its fair value.
- E. **Commitments to Extend Credit:** The estimated market value of off-balance-sheet commitments is minimal since the committed rate approximates current rates offered for commitments with similar rate and maturity characteristics and since the related credit risk is not significant.
- F. **Tobacco Buyout SIIC:** Fair value is determined by discounting the expected future cash flows using current interest rates for similar assets.
- G. **Assets Held in Trust Funds and Deferred Compensation Liabilities:** See Note 4 for discussion of estimation of fair value for this instrument.

NOTE 6 – SUBSEQUENT EVENTS

The Association has evaluated subsequent events and has determined there are none requiring disclosure through May 7, 2010, which is the date the financial statements were issued.
